Poly Arbor 8 inch. The Rolls Royce of lapidary arbors. My Polys have been running since the first day they were set up – somewhere around 1975. This one was purchased years ago and kept as a back-up and was never set up. New – never run. \$220 plus shipping.

Two 8 inch disks – L and R threaded for the above Poly arbor. These are new, never used. Note: the rubber pads hardened (from not being used)and have been replaced. I cover my disks with leather and use with 1200 mesh silicon carbide on one side, then I use cerium or tin oxide on the other side to give cabs that “water wet” supreme polish. \$175 / pair.
